GO_Biological_Process_2021
ovarian follicle development (GO:0001541)
female gonad development (GO:0008585)
positive regulation of phospholipase C activity (GO:0010863)
mast cell degranulation (GO:0043303)
calcitonin family receptor signaling pathway (GO:0097646)
positive regulation of phospholipase A2 activity (GO:0032430)
positive regulation of leukocyte mediated immunity (GO:0002705)
immature B cell differentiation (GO:0002327)
regulation of dendritic cell cytokine production (GO:0002730)
positive regulation of smooth muscle cell differentiation (GO:0051152)
