GO_Biological_Process_2021
negative regulation of leukocyte activation (GO:0002695)
negative regulation of digestive system process (GO:0060457)
striated muscle cell differentiation (GO:0051146)
positive regulation of triglyceride metabolic process (GO:0090208)
regulation of macrophage derived foam cell differentiation (GO:0010743)
regulation of cholesterol storage (GO:0010885)
negative regulation of pinocytosis (GO:0048550)
regulation of extracellular exosome assembly (GO:1903551)
positive regulation of sterol transport (GO:0032373)
negative regulation of response to interferon-gamma (GO:0060331)
